

Rungu Dualie Advantages

- Rungu Dualie's Double Wheel Design, two front wheels spaced 9 inches apart, makes riding much safer as it virtually eliminates the washouts and over-the-bar wipeouts common with any single-wheel E-Bike off-road. The Double Wheel Design provides ATV-like off-road control without the inherent danger of an ATV.
- Like a Quad ATV, Rungu Dualie **muscles through where other E-Bikes cannot**. With up to 242 ft. lbs. of torque, Rungu Dualie Standard conquers soft sand, **snow (up to 9 inches or more)**, mud, rocks, logs. With that torque and the trailer hitch option or one of our trailers, you can **pull up to 300 lbs.!**
- Patented form of Ackerman Steering, which results in smooth off-road control. **The two front wheels grip terrain like a Quad ATV or a 4WD Jeep.**
- **Climbs much steeper terrain** without getting out of the saddle. Like a Hill Climb bike, Rungu Dualie's center of gravity is further forward keeping you **in the saddle at grades over 40%**.
- With more distance between you and the front wheels and twice the braking power compared to a conventional off-road E-Bike, Rungu Dualie **descends steep terrain better and with much more control.**
- Rungu Dualie's modified step-through frame supports up to 350 lbs. without compromising a **26.5-inch standover height**. Nobody likes standing on their tiptoes to avoid a crotch crunch.

Specifications

- Length – wheelbase 54.7 in. | projected length 85 in.
- Width – handlebar width 32.7 in. | Path width (distance from outside of one front tire to the other) 13.75 in.
- Weight – 105 lbs. with all accessories
- Frame size - 14.5 in.
- Saddle surface height – lowest position 34 in., highest position 42 in.
- Stand-over height - 26.5 in.
- Ground clearance – 9 in.
- Max. Combined Load weight - 344 lbs.

Performance

- **Estimated range** – off-road with pedal assist¹ - **up to 24 mi @ 10 mph** | on pavement with pedal assist – up to 135 mi @ 10 mph
- Max climbing grade² - up to 53%
- Top speed off-road – up to 24 mph³
- Max power output – 1429 W⁴ (1.9 Hp)
- Max torque at rear wheel – 242 ft-lb⁵

Factory Configured Options

- Color - Available in Midnight Black, Forest Green or Winter Slate and Premium Colors: Sitka Spruce, Carbon Stealth (as shown), and Sandstone Wash
- Custom Powder Coat or Camo wrap
- Optional Canadian standard, Class 1 or 2 configuration
- Upgrade option - 2" Ball Hitch on Cargo Rack - Max Towing Weight 300 lbs.

Warranty

- 2-year on all components, details in Sales Terms and Conditions document

"I took my Rungu Dualie Rugged to the mountains of Colorado and it kept up, if not, outperformed the ATVs the other guys brought. What a great product!" – Justin C., Rungu Dualie Customer

¹ Estimate based on experience and calculation of maximum range for Rungu carrying 175 lbs. load, on flat ground, no wind, no stops/starts traveling at speed indicated for Max Range. We assume an average of 50W of power contribution from the rider when using pedal assist. Battery operating between 40° and 60° Fahrenheit.

² Based on experience and calculations. Conditions include load limited to 175 lbs., hard surface, speed of 3 mph and slope distance of 50 ft. Actual maximum climbing grade may differ.

³ Based on experience and calculations. Throttle-only speed for 175 lb. load, on flat dirt road, with no wind. Actual top speed may differ.

⁴ At full charge of 58.8V, 33A input at 121 rpm output

⁵ At lowest gear ratio for Box 2 Prime 9 Gearing 1:1.67
